

NGUYEN VAN NAM

WEB DEVELOPER

Phone +8180-6862-2611
Email dev.namnv@gmail.com
Address Nagoya, Aichi, Japan
Website <https://dev-namnv.github.io/>

OBJECTIVE

As a Web Developer with over three years of experience, I have solidified my skills in both front-end and back-end development. I aim to leverage my expertise in full-stack web development, particularly React.js and NestJS, to create innovative solutions in a dynamic tech environment.

Experience and Skills:

- Front-end Development: React.js (Material UI, Ant Design, React Bootstrap)
- Back-end Development: Node.js, NestJS, PHP Laravel
- Databases: MongoDB, MySQL
- Programming Languages: Typescript, Javascript
- Tools and Operating Systems: PM2, AWS EC2

I take pride not only in my technical skills but also in my work ethic. Three key principles guide me:

1. Commitment to Quality: Thoroughly researching tasks and always going the extra mile is second nature to me.
2. Flexible Working Hours: I don't limit myself to traditional work hours and am always ready to put in extra time to meet project goals.
3. Transparent Communication: I ensure clear and continuous communication, always available for collaboration and quick to address any concerns.

Looking ahead, I am determined to become an expert in web development. I am committed to refining my skills with every project, striving for quality, innovation, and continuous learning.

Feel free to connect with me via email at dev.namnv@gmail.com

EDUCATION

Apr 2023 - Present	Nissei Japanese language school Major: Japanese
Aug 2018 - Dec 2020	FPT Polytechnic Major: Web Engineer

SKILLS

Programming languages	Typescript, Javascript, PHP
Frameworks	NestJS, React.js, Expressjs, Laravel.
UI Frameworks	Material UI, Ant Design, React Bootstrap.
Database	MongoDB, MySQL
SCM	Git, GitLab, GitHub
Software Methodology	Agile, Scrum
Reskills	Swiftly adjusting to novel technologies and changes.
Problem-Solving	Tackling complex issues with effective solutions.
Leadership	Ensuring transparency and clarity with team members and clients alike.
Lifelong Learning	Relentlessly pursuing knowledge for personal growth and innovation.

WORK EXPERIENCE

May 2021 - Nov 2022	<p>Chainos Solution Full-stack Developer Responsibilities:</p> <ul style="list-style-type: none">- Developed front-end using React.js.- Engineered back-end solutions with NestJS/Node.js, MySQL, and MongoDB. <p>Achievements & Learning:</p> <ul style="list-style-type: none">- Contributed to the development of an NFT Web Marketplace and Web Live Streaming platform.- Played a key role in creating a Learning Management System admin panel.- Acquired practical knowledge in smart contract technology.
Sep 2020 - Apr 2021	<p>Company Limited JONES Backend Developer (NodeJS & NestJS) Responsibilities:</p> <ul style="list-style-type: none">- Served as a backend developer, focusing on server deployment and project support.- Conducted code reviews to ensure quality and efficiency. <p>Achievements & Learning:</p> <ul style="list-style-type: none">- Gained expertise in microservice backend models and the TypeScript language.- Expanded knowledge in React.js, NestJS, and MongoDB.
Nov 2019 - July 2020	<p>EGD Group PHP Developer (Laravel) Responsibilities:</p> <ul style="list-style-type: none">- Developed and optimized databases.- Contributed to front-end development.- Solved complex development problems. <p>Achievements & Learning:</p> <ul style="list-style-type: none">- Learned to organize code effectively.- Developed skills in Laravel, MySQL, and Docker deployment.

CERTIFICATIONS

2020

English Topnotch 2

PROJECTS

JUSEI

(2022)

Client	Japanese educational institution
Description	Managed school administration, student data, test questions, and testing processes.
Team size	6
Position	Backend Developer (NestJS)
Responsibilities	Developed APIs and wrote unit tests.
Technologies used	TypeScript, NestJS, Jest

Governance

(2021 - 2022)

Client	Korean blockchain company
Description	Developed a blockchain chain with role-based user invitations.
Team size	6
Position	Backend Developer (NestJS)
Responsibilities	Developed APIs and wrote unit tests.
Technologies used	TypeScript, NestJS, Jest

IPXHOP Admin

(2021 - 2022)

Client	Korean blockchain company
Description	Created, airdropped, and sold NFTs; managed users and permissions.
Team size	7
Position	Frontend Developer (ReactJS)
Responsibilities	Set up the base project, managed NFTs, users, and admin settings.
Technologies used	JavaScript, ReactJS, Redux, Blockchain

LMS Admin (2021 - 2022)

Client	Japanese educational platform
Description	Managed educational institutions, student data, and performed analytics.
Team size	4
Position	Frontend Developer (ReactJS)
Responsibilities	Developed modules and contributed to project design.
Technologies used	JavaScript, ReactJS, Redux

FalconSwaps (2021 - 2022)

Client	Confidential
Description	Developed a blockchain transaction website similar to PancakeSwap.
Team size	5
Position	Frontend Developer (ReactJS)
Responsibilities	Updated the system to a new design and resolved issues.
Technologies used	TypeScript, ReactJS, Blockchain

Web live stream (2021)

Client	Korean entertainment company
Description	Developed a live streaming platform with interactive features for Kpop and movie content.
Team size	8
Position	Frontend Developer (ReactJS)
Responsibilities	Implemented live streaming, real-time comments, and like features.
Technologies used	JavaScript, ReactJS, Redux

Tour booking (2020 - 2021)

Client	Graduation thesis project
Description	Developed a website for booking tours, restaurants, and car rentals.
Team size	8
Position	PM, Backend Developer, Frontend support
Responsibilities	Designed and optimized the system, developed RESTful APIs, and deployed applications.
Technologies used	PHP, Laravel, MySQL, AWS

Segment

(2020 - 2021)

Client	Internal company product
Description	Built a microservice-based system for creating websites for businesses and individuals.
Team size	4
Position	Backend, Frontend Developer
Responsibilities	Designed and optimized the system, reviewed code, and deployed applications.
Technologies used	TypeScript, NestJS, ReactJS, Redux, MongoDB

E-Learning Houyou

(2019 - 2020)

Client	E-learning platform, Japan
Description	Developed a system for managing and selling online courses.
Team size	6
Position	Frontend Developer, Backend support
Responsibilities	Developed frontend and database.
Technologies used	JavaScript, NuxtJS, Docker, Laravel

HONDA Interactive

(2019 - 2020)

Client	Honda Japan
Description	Developed an interactive system for Honda's customer engagement in Japan.
Team size	6
Position	Frontend Developer, Database Designer
Responsibilities	Designed and implemented the UI, managed CRUD operations, and optimized database queries.
Technologies used	Laravel, jQuery, Bootstrap, MySQL
